Philosophies and Sociologies of Bioethics Hauke Riesch, Nathan Emmerich, Steven Wainwright, 2018-07-09 This book is an interdisciplinary contribution to bioethics, bringing together philosophers, sociologists and Science and Technology Studies researchers as a way of bridging the disciplinary divides that have opened up in the study of bioethics. Each discipline approaches the topic through its own lens providing either normative statements or empirical studies, and the distance between the disciplines is heightened not only by differences in approach, but also disagreements over the values, interpretations and problematics within bioethical research. In order to converse across these divides, this volume includes contributions from several disciplines. The volume examines the sociological issues faced by interdisciplinary research in bioethics, the role of expertise, moral generalisations, distributed agency, and the importance of examining what is not being talked about. Other contributions try to take an interdisciplinary look at a range of specific situations, fetal alcohol syndrome in the media, citizen science, electronic cigarettes and bioethical issues in human geography.

Melvin Laird and the Foundation of the Post-Vietnam Military, 1969-1973 Richard A. Hunt, 2015 [E]xamines the former Congressman Melvin Laird's efforts to reconstitute the Department of Defense during the last years of the Vietnam war... Laird acted to mitigate the adverse effects of the Vietnam War on the department and to prepare the nation's armed forces for the future. Foremost was the transition from a conscripted military to an all-volunteer force, a fundamental policy shift that ended an unpopular and inequitable draft system.--from jacket.

Making Education Inclusive Sharon Moonsamy, Elizabeth Walton, 2015-09-18 Exclusionary pressures and practices are pervasive in education, despite the clamour for more inclusive education. Even as classrooms worldwide become more diverse, education is unlikely to become inclusive without deliberate efforts to dismantle exclusion and enable inclusion. This

book is a compilation of contributions to the conversation about what these efforts might entail. The conversation has its origins in the Making Education Inclusive Conference held in 2013, which brought together academics and practitioners from Southern Africa and other countries. Given the expectation that teachers should play a key role in promoting inclusion, it is not surprising to find significant interest in teacher education from many of the contributing authors. Their concerns range from explicit teacher development for pedagogical responsiveness to learner diversity, to overcoming the epistemological marginalisation that learners experience where teachers are not fully confident of their subject content and how to teach it. Access to education is clearly not enough, and other contributors to this book concern themselves with ways in which structures and systems could be reconstituted to enable meaningful inclusion. This might mean looking at how teachers might use tiered systems of behaviour support and various metacognitive strategies, how physical access can be promoted on a university campus, and understanding how parents think about disability. Each chapter represents a different perspective on what it might mean to resist educational exclusion in its many forms, and each offers possible ways to make education more inclusive.

Ghost industries Irene Curulli, 2018-08-03 What is the role of water in the conversion of former industrial areas? How is water used in engaging the public to experience these sites both as physical and cultural places? Can ecological design foster the coexistence of industry and environment? The book addresses these core questions by examining the impact of the former Oregonian industry (1830-1940) on the Willamette River landscape and discussing how projects of transformation interpret the triangular interplay among industry, landscape and water. This book is a source of suggestions and ideas for scholars, students and professionals in architecture, landscape architecture, planning and their related fields who want to manage the urban landscapes successfully.

Congress and Policy Making in the 21st Century Jeffery A. Jenkins, Eric M. Patashnik, 2016-02-15 Leading political scientists analyze how Congress tackles - and fails to tackle - national challenges, from health care to immigration.

The Archaeology of Ethnogenesis Barbara L. Voss, 2015-03-31 "Compelling new evidence, careful documentation, and an artfully woven narrative make *The Archaeology of Ethnogenesis* a path-breaking book for sociocultural scholars as well as for general readers interested in the politics of identity, ethnicity, gender, and the colonial and U.S. Western history."—*Transforming Anthropology* "Voss's lucid explanations of method and theory make the book accessible to a broad range of audiences, from upper-level undergraduate and graduate students to professionals and lay audiences. . . . Its interdisciplinarity, indeed, may help to sell archaeology to audiences who do not typically consider archaeological evidence as an option for identity studies."—*Current Anthropology* "The book reminds historians that other disciplines can offer

fruitful methodological forays into well-trodden areas of study.”—Journal of American History “Those scholars studying various aspects of the Hispanic worldwide empire would be well advised to peruse Voss’s work.”—Historical Archaeology “[W]ell written, theoretically sophisticated, and unburdened by abstract concepts or hyper-qualified verbiage.”—H-Net Reviews “[E]ngaging. Overall, the text belongs in the library of every student of Spanish and Mexican Alta California. . . . The Archaeology of Ethnogenesis will become an anthropological standard.”—Journal of California and Great Basin Anthropology “[A] must-read for all interested not only in colonial California, but for all historical archaeologists and to any archaeologist interested in the examination of identities.”—Cambridge Archaeological Journal “Shows how individuals negotiate ethnic identity through everyday objects and actions.”—SMRC Revista In this interdisciplinary study, Barbara Voss examines religious, environmental, cultural, and political differences at the Presidio of San Francisco, California, to reveal the development of social identities within the colony. Voss reconciles material culture with historical records, challenging widely held beliefs about ethnicity.

Relations between the European Union and Egypt after 2011 Anna Potyrala,,Beata Przybylska-Maszner,Sebastian Wojciechowski,2015-08-14 This publication is unique not only on a national but also international scale. It concerns the subject of the European Union's relations with Egypt after 2011 (including the earlier period), which is a highly topical issue and a very difficult one to analyse and explain. It is the outcome of a research grant titled 'The European Union towards the Transformation Processes in Egypt after 2011.' The authors largely belong to a small group of experts on North Africa and the Middle East, including Egypt. They are familiar with the literature on the subject from around the world and EU legislation. A significant strength of this project concerns the fieldwork carried out on site, in Egypt (literature, documents, interviews and observation), as well as direct contacts with European Union officials.

How to Get a Green Card Ilona Bray,2024-05-28 The ultimate green card guide The U.S. immigration system is an enormous bureaucracy, so it's vital that you understand it before attempting to apply for a green card. Making a mistake can lead to delays and hassles or even ruin your chances for success. How to Get a Green Card provides everything you need to

know about qualifying for permanent U.S. residence if you don't have an employer sponsoring you. Find out how to work with U.S. officials and prepare and present the right documents at the right time to get a green card through: • parents, siblings, or adult children • a U.S. spouse or fiancé • green card lotteries (diversity visa) • political asylum or refugee status • a U visa for crime victims, or • another category you might qualify for. The 16th edition covers the latest income requirements for family-based green card applicants, additions to the list of countries whose citizens may obtain Temporary Protected Status, and more.

EU Leadership in Energy and Environmental Governance Jakub M. Godzimirski, 2016-02-25 This edited collection focuses on the impact of the changing global distribution of power on the EU's energy policy and ability to project its approach to energy-related issues abroad. It maps the EU's changing position on global energy, the impact of various factors on its energy policy, and its relations with Russia, China, the USA and Brazil.

Business and Professional Writing: A Basic Guide Paul MacRae, 2015-03-03 Straightforward, practical, and focused on realistic examples, *Business and Professional Writing: A Basic Guide* is an introduction to the fundamentals of professional writing. The book emphasizes clarity, conciseness, and plain language. Guidelines and templates for business correspondence, formal and informal reports, brochures and press releases, and oral presentations are included. Exercises guide readers through the process of creating and revising each genre, and helpful tips, reminders, and suggested resources beyond the book are provided throughout.

Turkey and EU Integration Çigdem Nas, Yonca Özer, 2017-05-18 What has been achieved regarding Turkey's efforts at integration to the EU and what obstacles remain to it achieving full membership? Like other developing countries, Turkey displays visible signs of advancement with rapid increases in living standards, greater mobility and the rapid spread of technology. Much of its legislation and political, economic and administrative systems are also now aligned to the EU and this process has undoubtedly contributed to democratization and modernization. At the same time problems in politics and society persist; the Gezi protests, limitations of freedom of expression, frequent occupational accidents in the mining and construction sectors, honour killings and political upheaval which has manifested itself most starkly with the recent coup attempt all call attention to the challenges facing a country in the process of change. Charting the political, legal and economic relations between Turkey and the European Union since 1959 this book explores the relationship through phases such as association, customs union and candidacy. Each chapter covers a particular period in the relations and/or a theme which has both current and overall relevance to the conduct of the relations. In this way, the authors examine the impact of the EU in affecting change, what has been achieved and the obstacles that remain.

The Drone Memos Jameel Jaffer, 2010-01-12 “A trenchant summation” and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists, including US citizens (Publishers Weekly, starred review). In the long response to 9/11, the US government initiated a deeply controversial policy of “targeted killing”—the extrajudicial execution of suspected terrorists and militants, typically via drones. A remarkable effort was made to legitimize this practice; one that most human rights experts agree is illegal and that the United States has historically condemned. In *The Drone Memos*, civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action. In a lucid and provocative introduction, Jaffer, who led the ACLU legal team that secured the release of many of the documents, evaluates the drone memos in light of domestic and international law. He connects the documents’ legal abstractions to the real-world violence they allow, and makes the case that we are trading core principles of democracy and human rights for the illusion of security. “A careful study of a secretive counterterrorism infrastructure capable of sustaining endless, orderless war, this book is profoundly necessary.” —Katrina vanden Heuvel, editor and publisher of *The Nation*

Gendertrolling Karla Mantilla, 2015-08-31 Gendertrolling arises out of the same misogyny that fuels other real life forms of harassment and abuse of women. This book explains this phenomenon, the way it can impact women's lives, and how it can be stopped. Designed to educate the general public on a popular and brutal form of harassment against women, *Gendertrolling: How Misogyny Went Viral* provides key insight into this Internet phenomenon. The book not only differentiates this violent form of trolling from others but also discusses the legal parameters surrounding the issue, such as privacy, anonymity, and free speech online as well as offering legal and policy recommendations for improving the climate for women online. The analysis of social media and legal aspects of the book make it highly suitable as a reliable source to many modern classes. Additionally, increased awareness among the general and scholarly public of the phenomenon of gendertrolling would help galvanize widespread support for laws, policies, new online content provider protocols, and positive social pressure.
