

Made In Britain By Evan Davis

Matthew d'Ancona

Made In Britain Evan Davis,2011-05-19 What are countries famous for making? For Japan, the answer might be electronic goods. For Germany, automobiles. For France, perhaps a Louis Vuitton bag. But what about Britain? Here, Evan Davis sets himself the task of finding out. Offering a fascinating look at our manufacturing industries and revealing the various companies that might not be household names, but are very much world leaders in their fields, he shows how we have learnt to specialise in high end and niche areas that are the envy of the world. Taking in our disappointments and successes, *Made in Britain* is a brilliantly readable tour of our economic history, exploring the curious blend of resilience, innovation and economic free-thinking that makes us who we are.

Post-Truth Evan Davis,2017-05-11 'A Malcolm Gladwell-style social psychology/behavioural economics primer' Evening Standard Low-level dishonesty is rife everywhere, in the form of exaggeration, selective use of facts, economy with the truth, careful drafting - from Trump and the Brexit debate to companies that tell us 'your call is important to us'. How did we get to a place where bullshit is not just rife but apparently so effective that it's become the communications strategy of our times? This brilliantly insightful book steps inside the panoply of deception employed in all walks of life and assesses how it has come to this. It sets out the surprising logic which explains why bullshit is both pervasive and persistent. Why are company annual reports often nonsense? Why should you not trust estate agents? And above all, why has political campaigning become the art of stretching the truth? Drawing on behavioural science, economics, psychology and of course his knowledge of the media, Evan ends by providing readers with a tool-kit to handle the kinds of deceptions we encounter every day, and charts a route through the muddy waters of the post-truth age.

Free Lunch David Smith,2010-07-09 'Free of jargon, obfuscation and interminable subordinate clauses, his prose is just the job' The Times A fully updated and revised edition of the classic guide. The economy has never been so relevant to so many people as it is now. 'There's no such thing as a free lunch' is the one phrase everyone has heard from economics. But why not? What does economics tell us about the price of lunch - and everything else? Set out like a good lunchtime

conversation, Free Lunch will escort you through the mysteries of the economy. Your guides will be some of the greatest names in the field, including Smith, Marx and Keynes. This clever and witty introduction to economics is essential reading in these times of economic uncertainty, and far more satisfying than even the most gourmet banquet.

Teaching Modern British and American Satire Evan R. Davis, Nicholas D. Nace, 2019-05-01 This volume addresses the teaching of satire written in English over the past three hundred years. For instructors covering current satire, it suggests ways to enrich students' understanding of voice, irony, and rhetoric and to explore the questions of how to define satire and how to determine what its ultimate aims are. For instructors teaching older satire, it demonstrates ways to help students gain knowledge of historical context, medium, and audience, while addressing more specific literary questions of technique and form. Readers will discover ways to introduce students to authors such as Swift and Twain, to techniques such as parody and verbal irony, and to the difficult subject of satire's offensiveness and elitism. This volume also helps teachers of a wide variety of courses, from composition to gateway courses and surveys, think about how to use modern satire in conceiving and structuring them.

Public Spending Evan Davis, 1998 Davis documents the problems of public sector spending and outlines areas for reform. He provides an account of the issues surrounding public spending in Britain today, examining the theories, reforms and practicalities of spending policy.

And Another Thing ... Eoin Colfer, Douglas Adams, 2009-10-11 Enhanced eBook, includes an additional chapter and Audio content. *And Another Thing . . .* will be the sixth novel in the now improbably named Hitchhiker's Guide to the Galaxy trilogy. Eight years after the death of its creator, Douglas Adams, the author's widow, Jane Belson, has given her approval for the project to be continued by the international number one bestselling children's writer, Eoin Colfer, author of the *Artemis Fowl* novels. Douglas Adams himself once said, 'I suspect at some point in the future I will write a sixth Hitchhiker book. Five seems to be a wrong kind of number, six is a better kind of number.' Belson said of Eoin Colfer, 'I love his books and could not think of a better person to transport Arthur, Zaphod and Marvin to pastures new.' Colfer, a fan of Hitchhiker since his schooldays, said, 'Being given the chance to write this book is like suddenly being offered the superpower of your choice. For years I have been finishing this incredible story in my head and now I have the opportunity to do it in the real world.' Prepare to be amazed . . .

One River Wade Davis, 2014-06-26 From the author of *INTO THE SILENCE*, winner of the Samuel Johnson Prize for Non-Fiction In 1941, Richard Evans Schultes took a leave of absence from Harvard University and disappeared into the Northern Amazon of Colombia. The world's leading authority on the hallucinogens and medicinal plants of the region, he returned after twelve years of travelling through South America in a dug-out canoe, mapping uncharted rivers, living among local tribes and documenting the knowledge of shamans. Thirty years later, his student Wade Davis landed in Bogota to follow in his mentor's

footsteps - so creating an epic tale of undaunted adventure, a compelling work of natural history and a testament to the spirit of scientific exploration.

Letters from Lockdown, 2020-11-26 A remarkable collection of 'Covid Chronicles' -- stories from lockdown sent in from listeners to BBC Radio 4 -- making a deeply moving people's history of the pandemic. On 23 March 2020, as the deadly virus spread around the world, the UK went into lockdown. In the following weeks and months, it became clear that in many ways we were all in this together, but the illness and the long period of isolation would hit people in entirely different ways. When BBC Radio 4's PM Programme launched the 'Covid Chronicles' series, listeners from across the country - and beyond - began sending in their lockdown stories to be aired on the show. The results are astonishing: moving, profound, funny, powerful and an invaluable record of our collective experiences. Ranging from the everyday (the thrill of booking a food delivery) to the momentous (a wedding on Zoom), we hear about birth and death, loneliness and loss, community and kindness, as well as remarkable stories from those working in the NHS on the front line. This book is a collection of some of these Chronicles, written in the midst of one of the most unexpected and intense moments in our history. Together they give us an unforgettable portrait of ordinary people caught in extraordinary times, with all the humour and tragedy and uncertainty we've been through. 'It's inspiring that so many people have shared their stories - some everyday, some life-changing, but all very human. This is a wonderful collection of experiences, to record and remember this devastating year' Christie Watson, bestselling author of *The Language of Kindness*

Nervous States William Davies, 2018-09-20 A dazzlingly original analysis of how emotions shape the times we are living in by one of Britain's most exciting thinkers 'A masterpiece' *New York Times* 'Insightful and well-written' Yuval Noah Harari, author of *Sapiens* How have feelings come to shape the world around us? Why has politics become so fractious and warlike? What might the future hold? In this bold and compelling exploration of our new political reality, William Davies reveals how feelings have come to reshape our world. Drawing on history, philosophy, psychology and economics, *Nervous States* is an essential guide to the turbulent times we are living through.

The Summit Ed Conway, 2014-05-29 The idea of world leaders gathering in the midst of economic crisis has become all-too familiar. But the summit at Bretton Woods in 1944 was the only time countries from around the world have agreed to overhaul the structure of the international monetary system. And, what's more, they were successful - it was the closest to perfection the world's economy has ever been, and arguably the demise of the Bretton Woods system is behind our present woes. This was no dry economic conference. The delegates spent half the time at each other's throats, and the other half drinking in the hotel bar. The Russians nearly capsized the entire project. The French threatened to walk out, repeatedly. John Maynard Keynes had a heart attack. His American counterpart was a KGB spy. But this summit could be instrumental in preventing World War Three. Drawing on a wealth of unpublished accounts, diaries and oral histories, this brilliant book

describes the conference in stunning colour and clarity. Bringing to life the characters, events and economics and written with exceptional verve and narrative pace, this is an extraordinarily accomplished work of history from a talented new writer.

Free Trade Nation Frank Trentmann, 2008 This is the story of free trade in 19th century Britain, its contribution to the development of Britain's democratic culture, and the unravelling of the free trade movement in the wake of the First World War.

The Neoliberal Age? Aled Davies, Ben Jackson, Florence Sutcliffe-Braithwaite, 2021-12-07 The late twentieth and early twenty-first centuries are commonly characterised as an age of 'neoliberalism' in which individualism, competition, free markets and privatisation came to dominate Britain's politics, economy and society. This historical framing has proven highly controversial, within both academia and contemporary political and public debate. Standard accounts of neoliberalism generally focus on the influence of political ideas in reshaping British politics; according to this narrative, neoliberalism was a right-wing ideology, peddled by political economists, think-tanks and politicians from the 1930s onwards, which finally triumphed in the 1970s and 1980s. *The Neoliberal Age?* suggests this narrative is too simplistic. Where the standard story sees neoliberalism as right-wing, this book points to some left-wing origins, too; where the standard story emphasises the agency of think-tanks and politicians, this book shows that other actors from the business world were also highly significant. Where the standard story can suggest that neoliberalism transformed subjectivities and social lives, this book illuminates other forces which helped make Britain more individualistic in the late twentieth century. The analysis thus takes neoliberalism seriously but also shows that it cannot be the only explanatory framework for understanding contemporary Britain. The book showcases cutting-edge research, making it useful to researchers and students, as well as to those interested in understanding the forces that have shaped our recent past.

Post-Truth James Ball, 2017-05-11 2016 marked the birth of the post-truth era. Sophistry and spin have coloured politics since the dawn of time, but two shock events - the Brexit vote and Donald Trump's elevation to US President - heralded a departure into murkier territory. From Trump denying video evidence of his own words, to the infamous Leave claims of £350 million for the NHS, politics has rarely seen so many stretching the truth with such impunity. Bullshit gets you noticed. Bullshit makes you rich. Bullshit can even pave your way to the Oval Office. This is bigger than fake news and bigger than social media. It's about the slow rise of a political, media and online infrastructure that has devalued truth. This is the story of bullshit: what's being spread, who's spreading it, why it works - and what we can do to tackle it.

Post-Truth Matthew d'Ancona, 2017-05-11 Welcome to the Post-Truth era— a time in which the art of the lie is shaking the very foundations of democracy and the world as we know it. The Brexit vote; Donald Trump's victory; the rejection of climate change science; the vilification of immigrants; all have been based on the power to evoke feelings and not facts. So what does it all mean and how can we champion truth in a time of lies and 'alternative facts'? In this eye-opening and

timely book, Post-Truth is distinguished from a long tradition of political lies, exaggeration and spin. What is new is not the mendacity of politicians but the public's response to it and the ability of new technologies and social media to manipulate, polarise and entrench opinion. Where trust has evaporated, conspiracy theories thrive, the authority of the media wilt and emotions matter more than facts. Now, one of the UK's most respected political journalists, Matthew d'Ancona investigates how we got here, why quiet resignation is not an option and how we can and must fight back.

Afropean Johny Pitts, 2019-06-06 Winner of the Jhalak Prize 'A revelation' Owen Jones 'Afropean seizes the blur of contradictions that have obscured Europe's relationship with blackness and paints it into something new, confident and lyrical' Afua Hirsch A Guardian, New Statesman and BBC History Magazine Best Book of 2019 'Afropean. Here was a space where blackness was taking part in shaping European identity ... A continent of Algerian flea markets, Surinamese shamanism, German Reggae and Moorish castles. Yes, all this was part of Europe too ... With my brown skin and my British passport - still a ticket into mainland Europe at the time of writing - I set out in search of the Afropeans, on a cold October morning.' Afropean is an on-the-ground documentary of areas where Europeans of African descent are juggling their multiple allegiances and forging new identities. Here is an alternative map of the continent, taking the reader to places like Cova Da Moura, the Cape Verdean shantytown on the outskirts of Lisbon with its own underground economy, and Rinkeby, the area of Stockholm that is eighty per cent Muslim. Johny Pitts visits the former Patrice Lumumba University in Moscow, where West African students are still making the most of Cold War ties with the USSR, and Clichy Sous Bois in Paris, which gave birth to the 2005 riots, all the while presenting Afropeans as lead actors in their own story.

The Prime Ministers Steve Richards, 2019-09-05 'Fascinating, revealing and entertaining.' John Humphrys 'A pure pleasure to read.' Polly Toynbee 'Extraordinary.' Kirsty Wark A landmark history of the men and women who have defined the UK's role in the modern world - and what makes them special - by a seasoned political journalist. At a time of unprecedented political upheaval, this magisterial history explains who leads us and why. From Harold Wilson to Theresa May, it brilliantly brings to life all nine inhabitants of 10 Downing Street over the past fifty years, vividly outlining their successes and failures - and what made each of them special. Based on unprecedented access and in-depth interviews, and inspired by the author's BBC Radio 4 and television series, Steve Richards expertly examines the men and women who have defined the UK's role in the modern world and sheds new light on the demands of the highest public office in the land.

John Paul Jones Evan Thomas, 2010-06-15 The New York Times bestseller from master biographer Evan Thomas brings to life the tumultuous story of the father of the American Navy. John Paul Jones, at sea and in the heat of the battle, was the great American hero of the Age of Sail. He was to history what Patrick O'Brian's Jack Aubrey and C.S. Forester's Horatio Hornblower are to fiction. Ruthless, indomitable, clever; he vowed to sail, as he put it, "in harm's way." Evan Thomas's minute-by-minute re-creation of the bloodbath between Jones's Bonhomme Richard and the British man-of-war Serapis off the

coast of England on an autumn night in 1779 is as gripping a sea battle as can be found in any novel. Drawing on Jones's correspondence with some of the most significant figures of the American Revolution—John Adams, Benjamin Franklin, Thomas Jefferson—Thomas's biography teaches us that it took fighters as well as thinkers, men driven by dreams of personal glory as well as high-minded principle, to break free of the past and start a new world. Jones's spirit was classically American.

A Dying Breed Peter Hanington, 2016-04-07 A SUNDAY TIMES THRILLER OF THE MONTH 'HANINGTON EXCELS... THERE ARE NODS TO LE CARRE, BUT HIS IMPRESSIVE DEBUT IS HIS OWN THING' The Sunday Times 'THOUGHTFUL, ATMOSPHERIC AND GRIPPINGLY PLOTTED' Guardian 'IMPRESSIVE... HANINGTON HAS TRUE TALENT' The Times 'TREMENDOUS' William Boyd 'ENTHRALLING' Michael Palin 'AMAZINGLY GRIPPING' Melvyn Bragg 'A BELTING GOOD READ' A.L. Kennedy 'I LOVED EVERY MINUTE IN THIS BOOK'S COMPANY' Fi Glover 'A NATURAL STORYTELLER' John Humphrys 'DEEPLY INTELLIGENT' Will Gompertz Kabul, Afghanistan. In a brilliantly plotted contemporary thriller with echoes of Graham Greene and John le Carré, William Carver, a veteran but unpredictable BBC hack, is thrown into the unknown when a bomb goes off killing a local official. Warned off the story from every direction, Carver won't give in until he finds the truth. Patrick, a young producer, is sent out on his first foreign assignment to control the wayward Carver, but as the story unravels it looks like the real story lies between the shadowy corridors of the BBC, the perilous streets of Kabul and the dark chambers of Whitehall. Set in a shadowy world of dubious morality and political treachery, A Dying Breed is a gripping novel about journalism in a time of war, about the struggle to tell the stories that need to be told - even if it is much easier not to. *And William Carver returns in Peter Hanington's A Single Source and A Cursed Place - out now*
