Russian Second-language Textbooks and Identity in the Universe of Discourse Olga M. Mladenova, 2004 This book provides an overview of the modifications and interaction of the Second-Language Learning discursive formation and the Identity discursive formation over four centuries of Russian history. It proposes an explanatory model in which small-scale linguistic detail is combined harmoniously with larger-scale language units in order to illuminate matters of cultural importance in their linguistic guise. Hallmark of its interdisciplinary scope is the isomorphic interpretation of image and text. Compositionally, interdisciplinarity pours into a nonlinear narrative; this narrative follows a spiral, redefining on a higher level and in a different setting distinctions, which were first discovered on a lower level with the theoretical devices of other disciplines. The lower coil of the helix accommodates the complementary argumentations of anthropology and lexical semantics; the higher one brings the conclusions to the plane of discourse analysis and semiotics.

Mr. Putin REV Fiona Hill, Clifford G. Gaddy, 2015-02-02 Fiona Hill and other U.S. public servants have been recognized as Guardians of the Year in TIME's 2019 Person of the Year issue. From the KGB to the Kremlin: a multidimensional portrait of the man at war with the West. Where do Vladimir Putin's ideas come from? How does he look at the outside world? What does he want, and how far is he willing to go? The great lesson of the outbreak of World War I in 1914 was the danger of misreading the statements, actions, and intentions of the adversary. Today, Vladimir Putin has become the greatest challenge to European security and the global world order in decades. Russia's 8,000 nuclear weapons underscore the huge risks of not understanding who Putin is. Featuring five new chapters, this new edition dispels potentially dangerous misconceptions about Putin and offers a clear-eyed look at his objectives. It presents Putin as a reflection of deeply ingrained Russian ways of thinking as well as his unique personal background and experience. Praise for the first edition: "If you want to begin to understand Russia today, read this book."—Sir John Scarlett, former chief of the British Secret Intelligence Service (MI6) "For anyone wishing to understand Russia's evolution since the breakup of the Soviet Union and its trajectory since then, the

book you hold in your hand is an essential guide.”—John McLaughlin, former deputy director of U.S. Central Intelligence “Of the many biographies of Vladimir Putin that have appeared in recent years, this one is the most useful.”—Foreign Affairs “This is not just another Putin biography. It is a psychological portrait.”—The Financial Times Q: Do you have time to read books? If so, which ones would you recommend? “My goodness, let's see. There's Mr. Putin, by Fiona Hill and Clifford Gaddy. Insightful.”—Vice President Joseph Biden in Joe Biden: The Rolling Stone Interview.

Time and the Ancestors Maarten Jansen, Gabina Aurora Pérez Jiménez, 2017-03-13 Time and the Ancestors: Aztec and Mixtec Ritual Art combines iconographical analysis with archaeological, historical and ethnographic studies and offers new interpretations of enigmatic masterpieces from ancient Mexico, focusing specifically on the symbols and values of the religious heritage of indigenous peoples.

Moholy-Nagy and the New Typography Petra Eisele, Isabel Naegele, Michael Lailach, 2019 In 1929, ten years after the Bauhaus was founded, Berlin's Martin-Gropius-Bau launched the exhibition 'New Typography.' László Moholy-Nagy, who had left Dessau the previous year and had earned a reputation as a designer in Berlin, was invited to exhibit his work together with other artists. He designed a room--entitled 'Wohin geht die typografische Entwicklung?' ('Where is typography headed?')--where he presented 78 wall charts illustrating the development of the 'New Typography' since the turn of the century and extrapolating its possible future. To create these charts, he not only used his own designs, but also included advertising prints by colleagues associated with the Bauhaus. The functional graphic design, initiated by the 'New Typography' movement in the 1920s, broke with tradition and established a new advertising design based on artistic criteria. It aimed to achieve a modern look with standardized typefaces, industrial DIN norms, and adherence to such ideals as legibility, lucidity, and straightforwardness, in line with the key principles of constructivist art. For the first time, this comprehensive publication showcases Moholy-Nagy's wall charts which have recently been rediscovered in Berlin's Kunstbibliothek. Renowned authors provide insights into this treasure trove by each contributing to this alphabetized compilation starting with 'A' for 'Asymmetry' and ending with 'Z' for 'Zukunftsvision' ('vision of the future'). By perusing through the pages and allowing a free flow of association, the typographical world of ideas of the 1920s avant-garde is once again brought back to life. Graphic Design Theory Helen Armstrong, 2012-08-10 Graphic Design Theory is organized in three sections: Creating the Field traces the evolution of graphic design over the course of the early 1900s, including influential avant-garde ideas of futurism, constructivism, and the Bauhaus; Building on Success covers the mid- to late twentieth century and considers the International Style, modernism, and postmodernism; and Mapping the Future opens at the end of the last century and includes current discussions on legibility, social responsibility, and new media. Striking color images illustrate each of the movements discussed and demonstrate the ongoing relationship between theory and practice. A brief commentary prefaces each text, providing a cultural and historical framework through which the work can be evaluated. Authors include such

influential designers as Herbert Bayer, L'szlo Moholy-Nagy, Karl Gerstner, Katherine McCoy, Michael Rock, Lev Manovich, Ellen Lupton, and Lorraine Wild. Additional features include a timeline, glossary, and bibliography for further reading.
